

# Coalescent inference of HIV transmission history

20 July 2022

## Why this project?

- \* Prevalence of HIV
- \* Supplementing contact tracing

Coalescent rate is:

$$\lambda = \frac{k(k-1)}{2N}$$

# Results

Main findings:

- \* First
- \* Second

# Results

Need a good example of text on here...

# Conclusions

Parting thoughts...
